

Abundance

LET GO, CONJURE, CRAFT

Pennies from heaven! By drawing this card, the luminescent lunar faery wants you to know that a flux of abundance is coming. This windfall is tailored to your wishes and needs that will bring jubilation! It may be a job promotion, house upgrade, ardent purpose, pot of gold or a romantic relationship.

The Full Moon Faery has come to your rescue. She is here to declutter everything that no longer serves your highest, happiest and best self, to make physical and energetic space for all the abundance you truly deserve.

The magical blessings of the full moon will flurry in once you

have released everything that does not bring you genuine joy. It is time to clean out your physical space so you can breathe freely. Next, a tidy up of your mindset will liberate you from sabotaging beliefs. Letting go of outdated paradigms, limiting thoughts and negative self-talk opens you to receive a positive reset.

Out with the old, in with the new. It's time to craft magic! The full moon amplifies and magnifies your thoughts, feelings and wishes. Mindfulness ensures that your thoughts are magnets for joyful creation.

The Full Moon Faery suggests you write two lists: a *letting go* and a *wish list*. Release the first list with gratitude under the full moon to open a portal for the magical new beginnings of which you are so worthy. When writing your wish list, be clear about what you want and when. Write this list in the present tense, so you conjure it into the sacred now. For example, "I love my career and feel appreciated in my workspace." Then surrender with faith and sprinkle it with magical moondust.

AFFIRMATION:

I make space for infinite blessings.
